# LOS ANGELES TOILE

by Dan Funderburgh

Flavor Paper may be straight outta BK, but we have nothing but love for the West Coast. So, we’re shining the spotlight on the City of Angels with a traditional French country toile flipped to showcase the chill counterculture vibe that makes L.A. the place to be. From the freeway, rich and infamous, to the need for namaste all day every day, Los Angeles Toile takes you on a slow and low ride through la-la land’s lexicon with classic FP twists. This smokin’ El Segundo colorway is printed on our version of peel-and-stick paper, which we call Quicky Sticky - a removable and repositionable adhesive-backed material that is slightly textured for a luxe look and feel. It’s also already trimmed for ease of installation. So, pour a drink. Throw on some tunes. Peel it. Stick it. Love it! Move it?
